HIGH QUALITY WHEY PROTEINS

NATIVE

THE NEXT GENERATION WHEY PROTEINS:

Our premium quality milk derived whey proteins are extracted directly from fresh skimmed milk. The raw material and state-of-the-art processing guarantee the native protein structure and a superior level of BCAAs and EAAs such as leucine, cysteine and tryptophan. Because of their high purity and native form, they are especially suitable for high-end products. Our GermanProt native is available with a protein content ranging from 80% to 90%.

PRODUCT RANGE / KEY BENEFITS

GermanProt 8000 native

WPC 80 native
WPC 80 native instant*

- Protein content: min. **80.00%** (in dry matter)
